

## SECRET SESSION LAST TWO HOURS

Gen. Deloye on the Stand Again Today.

REITERATES THE STATEMENT MADE YESTERDAY.

Say Dreyfus Could Have Obtained the Documents Named in the Bordereau—Expert Artillerymen Hartman and Ducros Declare That It Was Impossible—Capt. Lebrun-Renaud's Testimony of What Dreyfus Said Differs From That Told Either by Mercier or the Accused.

Rennes, Aug. 31.—[Special]—The secret session of the Dreyfus court-martial today lasted only two hours, after which the public sessions were resumed.

Gen. Deloye, who testified yesterday, reiterated his belief that the accused could have obtained the documents named in the bordereau. Expert artillerymen Hartman and Ducros confronted the witness and declared that Dreyfus could not have obtained the documents in question.

Knew Dreyfus Was Innocent. Dreyfus entered the court room this morning looking worn and distressed. Evidently the secret session was a trying ordeal.

Captain Lebrun-Renaud, the officer to whom Dreyfus is said to have confessed the first witness in the open session. The witness said: "When I visited the accused he said to me: 'I am innocent and in three years my innocence will be established. The ministry knows it. Du Paty de Clam came to my cell a few days ago to tell me that the ministry knew it and that the ministry was aware that if I had delivered any documents to a foreign power it was done only to obtain more important documents in return.'"

Difers From Other Stories. This version of what Dreyfus said differs from that told either by Gen. Mercier or Dreyfus. The only confession about it is the one of the implication that Dreyfus accepted Du Paty de Clam's words and quoted them as a justification of himself.

Lebrun-Renaud said he told Mercier exactly what he testified to today. Dreyfus here arose and said: "My words, I am innocent, were in reply to a question and were reiterated. I do not understand how an officer could hear such words as you say you heard from me without asking for an explanation. Your not asking carries a significance which my judges and all honest men must perceive. You transformed my words and altered my meaning. I never had such thoughts, much less uttered those words."

Dreyfus spoke in a most dramatic manner and his charge against Lebrun-Renaud created a sensation.

"Dreyfus Never Avowed Guilt." Several minor officers testified in support of Lebrun-Renaud's testimony in count of his interview with Dreyfus. Major Forsinetti, who had charge of the Cherchidi mid prison while Dreyfus was confined there, was the next who took the stand.

The witness heard nothing from Dreyfus but protestations of his innocence. Lebrun-Renaud told him distinctly that Dreyfus never avowed his guilt. Forsinetti related how he had befriended the accused, who suffered greatly from despondency and threatened to commit suicide.

The whole court was profoundly stirred when Dreyfus arose at the conclusion of Forsinetti's testimony and said with streaming eyes: "That I am here today, that I am in this world even, I owe to Maj. Forsinetti." The court then adjourned.

Testimony Commented Upon. Rennes, Aug. 31.—[Special]—Lebrun-Renaud's testimony today was variously commented on. The Dreyfusites claim that he showed that he settled too much to be trustworthy.

When the Decision is Rendered. Rennes, Aug. 31.—[Special]—It is ascertained that the Dreyfus court-martial will not render a verdict in the presence of the accused.

Dreyfus will be in his cell when the court's judgment is delivered. The officers of the court will then cross to the prison, where Dreyfus, surrounded by troops, will listen to the decision.

Melina Plans a Coup. Paris, Aug. 31.—Former Premier Melina is preparing to come back into power with eclat after the rendering of the judgment at Rennes. As soon as a sufficient number of deputies have signed the request for the convocation of parliament, it is said, Deschanel will call the chamber of deputies together despite the wishes of the government. Melina's plans contemplate the overthrow of the Waldeck-Rousseau cabinet.

Freyinet Not Acquitted. Paris, Aug. 31.—M. Gabriel Menod, in the Figaro, relates a conversation he had with M. de Freyinet after the latter's deposition at Rennes. M. de Freyinet said: "It was not for me to dictate a verdict to the judges; but all should desire an acquittal, as a con-

viction would be a perpetuation of our discords. As for the legend of the syndicate, it is absurd."

Hands Off the Dreyfus Case. Berlin, Aug. 31.—The three powers of the triple alliance—Germany, Austria and Italy—have decided that they will publish no documents bearing on the Dreyfus case nor in any way interfere. This is due to agreement after diplomatic correspondence; not to independent decision.

White Given the Decision. Dubuque, Iowa, Aug. 31.—Tommy White was given the decision over Henry Lyons in a twenty-round bout before the Dubuque Athletic association last night. Lyons put up a game fight and there are many who thought the decision should have been a draw.

Dewey Sails Again Today. Nice, Aug. 31.—The United States cruiser Olympia left Villefranche this afternoon. Admiral Dewey is looking very well.

## JOHN M. WHITEHEAD RECEIVED HONORS

NAMED AS A DELEGATE TO THE TRUST CONFERENCE.

Appointment Recently Made by Governor Scofield—To Be Held in Chicago September 13 to 16—Local Senator Accepts and Will Attend—Other Notables Going.

Hon. John M. Whitehead of this city, has been honored by receiving an appointment by Governor Scofield as one of the delegates to the great conference in regard to trusts, to be held in Chicago Sept. 13 to 16. Mr. Whitehead has accepted the appointment and will attend the meeting.

The subject for discussion will be, "Trusts and Combinations; Their Uses and Abuses—Railways, Labor, Industrial and Commercial."

The Wisconsin delegation, of which the well known local attorney is a member, is composed of such representative men as Governor Scofield, John C. Spooner, J. V. Quarles, William F. Vilas, Edward S. Bragg, Thomas M. Blackstock, J. G. Monahan, Ellis B. Usher and others. The agricultural interests will be represented by ex-Governor W. D. Hoard. The meeting will no doubt go down into history as one of the greatest meetings of noted men held in modern times, as the list is made up of statesmen and educators, politicians and preachers, trust magnates, labor representatives, farmers and sociologists, in fact representative men of all classes.

Acceptances have already been received from the governors of thirteen states, also from W. J. Bryan, Chauncey M. Depew, Bourke Cockran, John G. Carlisle, J. S. Brice, Russell A. Alger, John Sherman, J. B. Foraker, M. E. Ingalls and many others. Fifty congressmen and United States senators have applied for seats, expressing a desire to hear men representing all sides of the nation's life in discussion of the trust question.

It has been emphasized in the invitations and planned for in the arrangements that the conference shall be strictly an educational one, and without partisan bias or color. Facts already known promise a meeting of striking interest and importance and the proceedings will be closely watched by all.

## OPPOSE THE FARMERS' TRUST.

Many Agriculturists and Other People in Kansas Object.

Topeka, Kan., Aug. 31.—The Farmers' federation has opened temporary headquarters here, and an address issued by President Allen is being sent broadcast to prominent farmers throughout the west. A corps of clerks has been employed. President Allen hopes to move headquarters to Chicago by Dec. 1.

Many of the prominent farmers of Kansas are opposed to the scheme and say it is impracticable. Walter N. Allen tried to organize the federation in 1898, but the Farmers' alliance and its warehouse scheme killed it. Many people in Kansas contend that the farmers' trust is no better than many other trusts that are endeavoring to monopolize products and control and manipulate markets.

Call the Disease Smallpox.

Bloomington, Ill., Aug. 31.—The cutaneous disease which first appeared at Dalt, six miles west of Bloomington, last spring and which for several weeks has prevailed in the vicinity of Downs, is declared by Dr. Charles S. Nelson of Springfield, an agent of the state board of health sent here to investigate, to be smallpox. He recommended an immediate quarantine.

There have been fifty or sixty cases, and twenty persons are now suffering from the disease. So far no deaths have resulted, but the weather has been favorable for recovery. There are several cases under suspicion in this city.

Vasquez Chosen President.

Porto Plata, Santo Domingo, Aug. 31.—Gen. Vasquez has been installed as president of the provisional government which the revolutionists have established at Santiago. Gen. Caceres was made minister of war. The people are eager to have Gen. Jimenez take charge of the revolution.

## THE SUCCESSOR TO HEL REAUX GIVES UP

PRESIDENT FIGUERO TENDERS HIS RESIGNATION.

Santo Domingo is Quiet as the Various Ministers Still Hold Onto Their Positions—Reported at Cape Hayetien That Gen. Jimenez Has Landed on North Coast.

Santo Domingo Aug. 31.—[Special]—Figuero, who succeeded to the presidency of the republic after the assassination of Heuraux, has resigned. The city is quiet, as the various ministers still hold on to their positions.

Cape Hayetien, Aug. 31.—[Special]—It is reported that General Jimenez has landed on the north coast of Santo Domingo.

## THOUGHT TO BE SPIES

Portuguese Authorities Have Released Two Suspicious Boer Officers Who Were Arrested.

Lorenzo, Marquis, Aug. 31.—[Special]—The Portuguese authorities have released two Boer officers who were arrested here on suspicion of being spies.

## NO ASSISTANCE FOR BOERS.

Warning to the Transvaal Offered by a German Paper.

Berlin, Aug. 31.—The Nenechte Nachrichten, which reiterates its declaration regarding European neutrality in the event of hostilities in the Transvaal, says:

"The Boers should have fought the question on the basis of the Bloemfontein sphere of discussion. The anti-Boer feeling in Great Britain would pass away if Great Britain's demands were granted."

"France, without Russia, cannot stir a finger, and Russia will not. Austria-Hungary declared neutrality in 1896, and Italy will do nothing."

"Firmly convinced that the German government will maintain the strictest neutrality, we consider it all the more our duty to warn the Transvaal against a destructive policy."

## Plague in European Russia.

Moscow, Aug. 31.—It is officially announced that Prince Oldenburg, who is supervising the government's efforts to stamp out the bubonic plague in the government of Astrakhan, European Russia, reports that in the last nine days two deaths have occurred and three new cases have developed. A strict quarantine has been established, and the infection has not spread to any of the neighboring districts.

## Great Fire in Yokohama.

Yokohama, Aug. 18, via Victoria, B. C., Aug. 31.—The greatest fire in the history of Yokohama occurred Aug. 12, when a square mile of buildings was destroyed and sixteen lives lost. The property loss is estimated at between \$5,000,000 and \$6,000,000. The famous Theater street was destroyed from end to end. The owner of the house where the fire started was killed by a mob.

## Hanna and White Confer.

Frankfort, Aug. 31.—Senator Mark Hanna had a long conference Wednesday with the United States ambassador to Germany, Andrew D. White, who came from Hamburg, and Consul-General Guenther, on the present and prospective German-American relations.

## Dublin's Two Ancient Cathedrals.

Dublin has two ancient cathedrals—St. Patrick's and Christ church, the former of which was restored by a brewer and the latter by a distiller.

## THREE MEN MEET DEATH IN A SILO

INMATES OF MARATHON CO. ASYLUM ASPHYXIATED.

Overcome While Tramping Ensilage—Narrow Escape of Supt. Head—Mrs. Rose M. Sharpe of Oconto is Now Charged With Criminal Libel—News From Badgerdom.

Wausau, Wis., Aug. 31.—Frank Croasdale of Clark county, Gustave Gundersen of Portage county, and a William Hadike of Marathon county, inmates of the Marathon county asylum, were asphyxiated by carbonic acid gas yesterday morning, while working in a silo at that institution.

The work of filling the silo had been in progress for a week, and it was about two-thirds full. The ensilage was dropped from an opening at the top, and six men have been steadily engaged tramping it down. Tuesday a slight sour smell was noticed, but such a thing as danger did not occur to anyone.

Yesterday morning the crew of men started to work. The first three climbed into the silo, and almost instantly were overcome. A workman oiling the bearings under the dome, looked in and saw them stagger and fall. The alarm was given and an immediate effort at rescue was made. Supt. Head jumped into the silo and attempted to carry Croasdale out, but failed. A rope was lowered and Mr. Head staggered partly up the ladder and was overcome. He was assisted to the platform when he fell in a faint. Employees of the asylum succeeded in getting the bodies out within a few minutes, but life was extinct. Supt. Head soon regained consciousness, but still feels the effects of the poison.

Tests were made to ascertain the destructive agent and lime water, litmus paper and a lighted lantern all testified to the presence of carbonic acid gas, the lantern being extinguished when several feet above the top layer of ensilage.

So far as can be learned this is the first accident of this nature to be recorded.

## Mrs. Sharp in Court.

Oconto, Wis., Aug. 31.—Mrs. Rose M. Sharp is again in trouble, action having been begun against her yesterday, in a case which promises to rival the celebrated acid-throwing trial. Charges are preferred against her for criminal libel by Editor P. A. Dadour of The Enterprise. The trouble is the result of an article published in Mrs. Sharp's paper.

The authorities have purposely delayed the issuance of a warrant as long as possible with the knowledge that serious complications will result and in the hope that the matter could be peaceably settled. An open challenge on the part of one of Mrs. Sharp's henchmen, however, caused Dadour to renew vigorous action and the preliminaries to the trial were exacted yesterday, on account of the absence of the prosecuting attorney. The case has been postponed for one week, and pending the examination, Mrs. Sharp is placed under \$200 bonds.

Mrs. Sharp's attorney expresses the opinion that if this case is lost, countercharges can be preferred. Both parties have a strong following.

## Fear War in Africa.

La Crosse, Wis., Aug. 31.—Mr. and Mrs. Chris Johnson, who have been spending a day in the city, left Johannesburg, South Africa, the middle of June, because they apprehended war, which would destroy business and put in peril all property interests, especially of Englishmen. Mr. Johnson was superintendent of a gold mine on the Rand and had a salary of \$20,000 a year and everything supplied, but even that did not tempt him to remain longer. He was a month on the voyage to England, and then it was two weeks before passage to America could be secured by any line. He will go to California, where he has a lemon ranch, and is uncertain about returning to South Africa. Some years ago he was manager of an Idaho mine owned by La Crosse and Winona men.

## May Boycott Central.

Stevens Point, Wis., Aug. 31.—J. B. Last, general solicitor, and F. B. Seymour, general superintendent of the Green Bay and Western roads, have promised to put new trains to accommodate the traffic that will be given them in view of a threatened boycott of the Central, owing to the removal of the latter's shops. The Green Bay company will arrange to handle all business that comes in its way. The situation here has been communicated to the officials of the Oshkosh & Stevens Point railway, now in New York endeavoring to float the bonds for the construction of that road. A. E. Eaton, a leading lawyer, insists that, according to the terms of the contracts, and deeds to the site, the company cannot legally remove the shops without forfeiting the title to the property. A citizens' mass meeting is being arranged for tomorrow night.

## Wisconsin Postmaster Appointed.

Washington, D. C. Aug. 31.—Robert A. Lang was appointed postmaster at Dunnville, Dunn county, vice Alice J. Celleyham, resigned.

## Is Now a Newspaper Woman.

Baraboo, Wis., Aug. 31.—Mrs. L. K. Commander, who was pastor of the Unitarian church in this city until one year ago, has taken a position on the editorial staff of The New York Journal. It will be remembered that she married Herbert N. Cassin at Ruskin, Tenn., last winter, and after the fall of that social-

istic colony last month they went to New York. When married she retained her maiden name. At Ruskin they edited The Coming Nation. Bot. are now on The New York Journal.

## Nolan's Examination.

Madison, Wis., Aug. 31.—Charles Nolan, who was arrested on the charge of killing Thomas Good, who was found stabbed Sunday, was given his preliminary hearing in the municipal court yesterday. Judge Donovan appointed Attorney Lawrence Murphy to defend him. The examination was adjourned till today, when he will plead to the charge.

## Wisconsin Pensions Granted.

Washington, D. C. Aug. 31.—Original—James W. Burnham, Milton, 88; Harrison W. Vanorman, Dead, Ashland, 86; Hugh M. Shorb, Janesville, 88; Ince—John Hovarr, Platteville, \$17 to \$24; Washington, Stever, Oconto, \$6 to \$12; James M. Pixley, Eau Claire, \$8 to \$17. Original widows, etc.—Elizabeth Bowman, Medina, \$12; Maria J. Nanoman, Ashland, \$8.

## ROB WINAN'S HOUSE AND GET BIG RUBY

HOUSE BREAKER SHOWS MUCH DISCRIMINATION.

Passes Solid Silver to Get a Rich Stone He Overlooked a Fat Pocket Book and a Gold Watch, However, So His Account is Not All Credits.

A burglar who showed experience, deliberation and taste entered the home of Hon. John Winans on the corner of South Second and South Bluff streets, last night.

He pushed up a dining room window and made his way across the dining room to Mr. Winans' bedroom, adjoining. There was a very fair haul of solid silver in the dining room, but the fact that solid silver is hard to carry must have impressed him.

Whatever his thoughts he disturbed nothing but Mr. Winans' personal effects and the principal portion of his booty was a ruby shirt stud of such fire and brilliancy as to be notable. It was given to Mr. Winans by his wife and its intrinsic value of \$150 is therefore much below the loss Mr. Winans feels he has sustained.

A gold watch was in a vest in the closet opening off the dining room. Another pocket contained a fat wallet with considerable money. All this went untouched. The only evidence of the burglar's visit was that Mr. Winans' shirt and trousers had been carried into the dining room, the shirt despoiled of its stud, and the trousers' pockets emptied.

A Scotch collie and a terrier are kept about the house but they gave no alarm.

The same thief entered the John B. Day house on Third street just below. He carried a willow stick torn from one of the Winans trees, and used this to push up the screen. He got nothing here and apparently made only a brief stop.

Chief Hogan is convinced that last night's work was done by somebody much more capable than the men who did the Fletcher job. There have been burglaries in Stebbinsville, Edgerton, Whitewater and other towns around here, and a gang of fairly expert people are believed to be doing them all. They hang around the outskirts, do not show in town by daylight, and get in sight of the police as little as possible.

## NO HOPES FOR SAFETY

Two Vessels Which Sailed From Philadelphia Before Hurricane Are Long Overdue.

Philadelphia, Aug. 31.—[Special]—Two vessels which sailed from here previous to the recent hurricane are now overdue to such an extent that hopes for the safety of the thirty-one men constituting their crews are almost vanished. They are the British steamer, South Cambria, and the Philadelphia schooner, Chas. Peterson.

## LICENSED TO MARRY

Robert Hockett and Frankie Leffingwell of Janesville, Get Permit at Chicago.

Chicago, Aug. 31.—[Special]—Robert Hockett and Frankie Leffingwell of Janesville, Wis., were licensed to marry here today.

## FORECAST OF WEATHER

Chicago, Aug. 31.—[Special]—Forecast for Wisconsin: Generally fair tonight, Friday.

## Mountains in the Philippines.

The highest mountains of the Philippine islands are Halcón (Mindoro), 8,368 feet; Apo (Mindanao), 8,804 feet; Mayon, active volcano (Luzon), 8,283 feet; and San Cristobal (Luzon), 7,375 feet.

## Borax in Bleaching.

Put a teaspoonful of borax in your rinsing water. It will whiten the clothes, and also remove the yellow cast on garments that have been laid aside for two or three years.

## THEY FIRE NAILS AND SCRAP IRON

An Insurgent Mode of Warfare.

REBELS WERE ROUTED AFTER AN ALL DAY BATTLE.

Col. Bayliss Sends a Punitive Expedition Against the Epemy on Account of the Ambushing and Killing of American Soldiers a Few Days Ago

Not a Loss to Our Troops Reported—Discharged Soldiers Make Trouble at Manila—Threats of Mutiny Heard.

Manila, Aug. 31.—[Special]—General Otis today received a report from Colonel Bayliss at Cebu, announcing that he had sent a punitive expedition against the insurgents on account of the ambushing and killing of American soldiers by the natives a few days ago.

The rebels were routed after an all-day battle, without a loss on the American side.

The insurgents used a cannon, from which they fired nails and scrap iron.

Manila, Aug. 31.—One thousand discharged soldiers who are on the transport City of Para are being held in submission by an armed guard consisting of a company of the signal corps. The discharged soldiers threaten mutiny because the officers have ordered them to police their quarters and perform the other duties on board ship, which have been required of the enlisted men.

The discharged soldiers claim that they are no longer in the United States service and insist that they have all the rights of regular passengers while aboard the transport. When the officers first gave the orders, which caused the trouble, the men became so demonstrative that the signal corps company was armed immediately and placed on guard.

The officers of the guard have been instructed to carry out the orders regarding the discharged men working while aboard the transport, and serious trouble is liable to break out at any moment. The discharged soldiers are not allowed the freedom of the ship.

The officers insist that the men shall do the work which has been assigned to them, and further insist that the transport shall not leave this harbor until the men have satisfied the officers of their intention to behave themselves while at sea.

## JOIN ARMY OF THE RETURNED.

Idaho, Wyoming and North Dakota Volunteers Back from Manila.

San Francisco, Aug. 31.—The battalions of the Idaho, Wyoming and North Dakota volunteer regiments, which arrived on board the United States transport Grant Tuesday night from Manila, were welcomed home by Gov. Steunenberg of Idaho, Gov. Richards of Wyoming, and a large party of representative citizens of their respective states and territories upon entering the bay Wednesday. They were not allowed to disembark, though, owing to the lateness of the hour at which the quarantine inspection was concluded. They will be escorted from the dock to the Presidio by the California volunteer regiment today.

## EXPECT AN ATTACK FROM REBELS.

Aguinaldo Said to Have Ordered Advance to Take Town of Iba.

Manila, Aug. 31.—It is reported that Aguinaldo, the Filipino leader, has ordered the rebel generals in the province of Cavite to close in on and attempt to take the town of Imus, and it is added that troops are concentrating around the town from the lake country.

The rebels, it is further said, have an outpost of 700 men on the Dasmariñas road and an equal force in the town of Anabo. The Americans are intrenching the town and they have no fear of the result of any attack by the rebels.

## For Two Additional Regiments.

Washington, Aug. 31.—An official of the war department said yesterday that the order for the organization of two additional regiments of volunteer infantry would probably be issued this week. It is said that the colonels and a number of the field officers for these regiments have already been selected.

## The Largest Stamp Mill.

The largest stamp mill in the world just started up at the old Treadwell gold mine on Douglas island, Alaska, has sixty batteries, each of five stamps and each having a crushing capacity of four tons daily. The Treadwell mines now operate 880 stamps and crush 3,520 tons of ore daily, representing \$14,000.

## To Clean Paint Brushes.

If paint is hardened upon brushes, they can be cleaned by being soaked for a few hours in linseed oil, and afterward rinsed in turpentine.

# HARRY HAYNES WAS IN FEMALE ATTIRE

STRANGE ARREST MADE BY MILWAUKEE POLICE.

Prisoner Claims to Have Resided at Edgerton—Says That He Donned Woman's Garb in Order to Get Work—Given Sixty Days in the House of Correction.

Harry Haynes, who claims to have resided at Edgerton and Madison, was arrested at Milwaukee, Tuesday evening on a peculiar charge, and as a result of his folly is now serving sixty days in the House of Correction. The Milwaukee Sentinel of yesterday morning gave the following account of his arrest:

"The officers at Central Police station were treated to a very decided surprise last evening when a young person in female attire, of quiet appearance and not unattractive, who had been arrested on a charge of disorderly conduct proved to be a man. Patrolman Bradley and Laubheimer had found the prisoner in front of the Alhambra theater shortly after the play was concluded, acting in a manner which attracted the officers' attention. A patrol wagon was summoned and the young person was taken to Central station and booked under the name of Harriet Brown, aged 17 years."

"No sooner had the prisoner been locked up in the woman's ward than Lieut. Miller and Turnkey Murphy began exchanging notes on peculiarities in her appearance and manner and came to the conclusion that there might be some question as to the colors under which the young woman was sailing. Accordingly the prisoner was summoned and closely questioned, but without gaining any satisfactory admissions."

"To all questions the prisoner either replied in a high feminine key or else refused to respond, vouching her hands in a truly feminine manner and lamenting her fate with pathetic allusions to 'the disgrace of riding in the patrol wagon.' One of the officers noticed that the hair was somewhat awry, and a moment later a wig was removed from a closely clipped head. Even this did not disconcert the prisoner. While by no means convinced, the officers sent the prisoner back to the cell and called for the station matron. This was too much and the young man in woman's clothing finally acknowledged the true situation. He refused, however, to give any name except Harriet Brown."

"The fellow had, the police were convinced, been masquerading regularly as a woman. In every detail of manner, as well as of attire, there was evidence of long practice if not of habitual custom of filling the complete feminine wardrobe. They accordingly set about without delay to make an investigation, with the result that several interesting developments were made in the course of an hour. It was learned that for the past week the fellow had been employed as hired girl for general housework at 816 St. Paul, avenue, where he went a week ago Monday and secured a position without arousing suspicion. Since that time the mistress of the house noticed the peculiarities referred to and told her husband of her suspicions, but as he scoffed at the idea of anything being wrong, she likewise became convinced she was mistaken."

"The police learned that the fellow had a friend of very much the same appearance, and they are of the opinion that there is another man who has been playing a similar game with this one. An effort will be made to find this companion, who they learned was in the other's company shortly before the arrest last evening."

Letters Addressed to Edgerton.  
"A small valise found in the room where the fellow has been employed, contained several books and letters bearing the name of Harry Haynes of Edgerton, Wis., while there are also others addressed to Chicago and Madison. There were articles of both male and female attire in the grip, and several other articles, including six silver nail picks, which the police think may have been stolen, and a quantity of fancy stationery. The prisoner will be photographed, and held to await a thorough investigation of the case, which is one of the most unique which has come to the attention of the police for some time."

The Sentinel of this morning gives the following account of the prisoner's appearance in court:  
"Harry Haynes, arrested Tuesday evening, while walking the street in a guise of a woman, appeared in the police court yesterday morning, and was sentenced to the house of correction for sixty days. Haynes arrived in court clad in the full feminine attire in which he was arrested, and he not unnaturally was the center of attraction for officials and spectators alike."

"Before the court room ordeal, Haynes was obliged to pass through a trial to him as distasteful and embarrassing as his arraignment before Justice Ries. He was taken from his cell to the little room on the second floor of the station, where he was photographed and 'Bertilized,' while a small crowd

of curious onlookers had collected to watch the operation. The appearance of the man by daylight proved to be less deceptive than in the evening; for although the wig and costume served to produce the desired effect, a dark growth of beard made the general result somewhat incongruous, in spite of the traces of rouge and powder still remaining. In actions and manner, however, there was absolutely nothing to arouse suspicions of the gait and gestures were unmistakably feminine, while the voice was sufficiently effeminate to pass for that of a woman."

Modest Before the Men.  
"The strange prisoner betrayed a peculiar embarrassment at the presence of the men, even displaying such extreme modesty as to object to removing the stockings for the necessary foot measurements. When the time to take the photograph arrived, Haynes made desperate efforts to avoid looking into the camera, and several plates were spoiled in the attempt to secure a satisfactory likeness. A photograph was taken for The Sentinel, and then, before there could be any more shots from the camera, the prisoner tore up his gorgeously decorated hat. An old fedora had to be substituted for his usual headgear. The examination before Justice Ries took place at 10 o'clock and lasted, but a short time."

"The prisoner refused to talk to any great extent about his peculiar conduct, but as much of his story as he could be induced to tell was as follows, though the facts learned from other sources lead the police to doubt a portion of his account. He said that his home had been in Edgerton and that he had likewise lived in Madison, where he claimed to have a sister. Two years ago his mother died, and since then he believed that his mind had been unbalanced. When he came to Milwaukee a fortnight ago, he was unable to get work, he said, and so decided to dress as a woman in order to secure employment as a domestic. This he did, living first at 202 Ninth street, where he was working when arrested. The prisoner would not say where he had been recently before coming to Milwaukee."

Music Hall Singer  
"The police are convinced that the impersonation of a woman was not the result of a recently devised scheme, for the man's entire mannerisms show that he must have been filling his role habitually. Moreover, H. P. Rhode testified before the justice to having seen Haynes in various cities during the past two years, maintaining that he was a professional female impersonator, who frequently had danced at music halls. This the prisoner stoutly denied. When the sentence of sixty days was pronounced, Haynes picked up his skirt and walked with an injured air after the officer, who led the way to a patrol wagon. The two valises which contained his wardrobe were thrown in after him, and he was driven to the House of Correction, where he was furnished with apparel more becoming his sex."

Hanes' partner, who is thought to have been playing a similar role in Milwaukee, has not been caught, and it is thought he has probably left town. Hanes would give no information which would lead to his companion's detection. Whether the fellow is actually insane, or, as has been suggested, has been playing a shrewd swindle under his feminine guise, is a question which the police are unable to solve. They expect to learn more about him before his term expires."

## WEATHER AND CROP BULLETIN

Corn Makes Rapid Growth and Potatoes Make Satisfactory Progress.  
The average temperature for the week was above normal and ranged from 66° along Lake Superior to 74° over the southern counties. The nights were cool in the central and northern sections, but no frosts occurred.

The rainfall during the week was liberal and fairly well distributed except over the counties bordering on Lake Michigan, where the drought is becoming serious. In some of the central and western counties the rains were frequent and moderately heavy, causing some delay in sowing and threshing, but placing the soil in excellent condition for fall ploughing.

The week has been very favorable for the rapid growth and maturity of corn in all portions of the state, except along the eastern border and over some of the southern counties, where there has been a serious deficiency of rainfall, and droughty conditions prevail. Some corn has been cut, but the bulk of the crop will not be out of danger from frost until September 20. The present condition gives promise of a large crop. Stacking and threshing are progressing rapidly. The yield of oats is somewhat disappointing, but other grains are fair.

Potatoes have made satisfactory progress, and early plantings are now matured. The crop is considered good, except in a few localities where injured by dry weather.

About one-half of the tobacco crop is harvested, and the remainder is being shedded as rapidly as possible. The crop is exceptionally good.

Copious rains have benefited cranberries, but the water is still too low in the reservoirs to insure against damage by frost. Picking will commence next week. The apple crop is very poor. Small fruits plentiful; quality fair.

## BELOIT FREE PRESS VIEWS OF REMOVAL

REGARDING THE THOMPSON & SONS MFG. CO.

Of the Opinion That There is So Much Indefiniteness and Uncertainty in Their Statements That Practical Consideration and Action is Difficult if Not Impossible.

Yesterday The Gazette printed a statement made by John Thompson to a representative of the Beloit Daily News, regarding the contemplated removal of the John Thompson & Sons Manufacturing company from the Line City. In commenting upon them, the Beloit Press of last evening says:

"There is so much indefiniteness and uncertainty in the statements that practical consideration and action is rendered difficult if not impossible. One sentence would indicate that other considerations than grounds and buildings and the assistance of our citizens in securing them enter into the matter. O. Thompson says: 'all of us would like to remain in Beloit if we can meet our competitors on even terms.' This is a matter in which citizens of Beloit have no influence. Whatever competition the company may have to meet in the future, it is certain that they have so successfully met competition in the past that they have waxed strong and great and have accumulated large wealth, much to the gratification of every citizen who takes pride in the success of home institutions."

"Upon this matter of meeting competitors on even terms Mr. Oscar Thompson seems to rest the question of the removal of the plant from Beloit. This our citizens cannot settle, but must be settled by the company themselves."

"The other points brought out, namely, the vacation of Race street, provided the ground adjoining the plant on the north can be secured, and the removal of the plant to another location in the city and the erection of new buildings, both by the aid of citizens, would be fairly definite but for the proviso 'if we can meet our competitors on even terms.' When Mr. Oscar Thompson returns from the consultations with the committees of cities anxious to secure the plant whom he started today to meet, perhaps this proviso may be eliminated from the considerations of our citizens, and the question be brought down to the practical one of considering the ways and means by which the present plant may be extended to the north or removed to other grounds within the city. As the matter now stands, no steps can be intelligently taken until Mr. Oscar Thompson's return."

## BELOIT BOYS IN NEW ARMY

Four Young Men Will Start for Manila September 6.

## A Mother's Reward.

A young student at one of the large art institutions decided this winter to try for a prize. He was under twenty, and his competitors were all older than he. He wrote his mother about it, begging her to come and pose for him, saying that he knew he could win if only she were his subject. She had a large family at home to look after, and a small baby hardly two months old. Moreover, the spring had come, never an easy time for a mother to break away, pick up a small baby, and establish herself alone in a distant town, merely to sit as a model for a son. Most women would have hesitated, as hoped-for prizes being uncertain quantities, particularly for boys still in their teens, and present home duties being according to all rules of logic, paramount. But this mother did not hesitate. Her son had asked her to come, and so proved a rare loyalty. That was enough for her. At great inconvenience to herself she went, though cheerfully, and the picture was painted. Now the papers announce that the young boy-painter has won the prize. This will send him for a two years' course of study in Paris. It is like some old story of the masters, and certainly few sweeter stories of painters and their mothers have ever been told.

## The Cannon Ball Tree.

It is perhaps not generally known that the three-cornered nuts called Brazil nuts grow in packed clusters enclosed in shells which are roughly spherical in form, and have somewhat the appearance of rusty cannon-balls. In the tropical forests there is another nut-bearing plant which goes under the name of the cannon ball tree. The nutshells are almost perfectly spherical and would really be mistaken for cannon balls.

Michael Conway Visits Janesville After Two Years' Absence.

Michael Conway has returned to Janesville for a visit with friends and relatives, after an absence of two years among the gold fields of Alaska. He left this city in the fall of 1897 and went to a point about fifteen miles from Dawson City, where he formed a partnership with another man, staked out a claim and built a cabin.

While Mr. Conway did not make any rich strikes, he says that he did well during his stay in the Klondike, and intends to return there within a few weeks and resume his search for gold.

## A VERY PLEASANT SURPRISE

Friends Gather at the Home of Mrs. Christian Ludolph.

Yesterday being the fiftieth anniversary of the birth of Mrs. Christian Ludolph, 404 South Jackson street, about twenty five of her friends thought they would help her celebrate the occasion. Last evening a very pleasant surprise was perpetrated upon her and an evening of rare enjoyment was passed in social converse and amusements. During the evening jainty refreshments were served and it was a late hour when the guests dispersed.

## HAVE HAD A GRAND OUTING

Imperial Orchestra Returned Home Last Evening From Lake Geneva.

The members of the Imperial orchestra returned home last evening after enjoying an outing that they will long remember and one they richly deserved. They have been absent from the city for eight weeks, seven of which were spent playing at Camp Collier, Lake Geneva, and one week was passed in sight-seeing in the Windy City. The orchestra has been engaged to play for a society party at Spring Haven, one of the Lake Geneva resorts, next Saturday evening.

## THE DAMAGE IN PORTO RICO.

Official Reports of Losses in the Recent Storm.

AT LEAST 1,500 WERE KILLED.

Many Bodies Swept Out to Sea—Towns in the Path of the Hurricane Entirely Destroyed—Property Loss Will Amount to Many Millions of Dollars.

San Juan, Porto Rico, Aug. 31.—A majority of the larger towns and cities of Porto Rico in the path of the great hurricane of Aug. 8 have been heard from.

Major John Clem, chief quartermaster of the department, who has visited a number of the stricken cities, estimates that at least 1,500 people have been killed by falling houses and flying timbers or drowned, and that 8,000 have been injured. The detailed reports made by post commanders to the adjutant-general follow:

Ponce—Two hundred and fifty bodies have been buried, and it is certain that the complete list of the city and its "barrios" will aggregate 400.

Arecibo—Two hundred bodies have been recovered, and 700 persons are missing. It is thought that several bodies were swept out to sea.

Humacao—Eighty-nine dead and 300 wounded.

Cayey—Thirty-four dead, and the town entirely destroyed.

Aibonito—Twenty-three dead.

Yabucoa—Best estimate obtainable places the number of dead 175. The town contained a population of only 2,500, and not a house or wall was left standing.

Arroyo—All houses were blown down by the hurricane and a few hours later the town was flooded by water to a depth of ten feet. Sixteen people were known to have been drowned, and it is probable that many others perished.

Guayama—All buildings, with the exception of the great cathedral, were unroofed or otherwise damaged. Thirty people were killed.

Caguas—Four deaths.

Juana Diaz—Five drowned.

Naguabo—Town supposed to have been entirely destroyed.

Jayuya—Half the town swept away by the River Mameas. Thirty reported dead.

Other towns in the path of the hurricane, from which incomplete reports by native carriers have been received, and at which loss of life has occurred, are: Las Piedras, Juncos, Trujillo Alto, Trujillo Baja, Ysabela, Manabo, Quebradillas, Lares, Hatillo, Ciales, Yauco, Guanica, Patillas, Utuado, Adjuntas.

The property loss on the island will amount to many millions of dollars.

The coffee and orange crops have been entirely ruined and all other crops have suffered greatly.

Cleveland Car Is Blown Up.

Cleveland, Ohio, Aug. 31.—A street car on the Willson avenue line was blown up last night. There were six passengers on board, five of whom sustained broken legs. The car was lifted entirely off the track by the explosion, the trucks and flooring being demolished. The car fell in such a way as to imprison the passengers. They were rescued by the crew of the car. There is no clew to the perpetrators of the disaster. The street railway troubles are still unsettled.

New Two-Dollar Counterfeit.

Washington, Aug. 31.—The secret service has discovered a new counterfeit \$2 treasury note of the series of 1891, check letter D; Bruce, register; Roberts, treasurer; portrait, McPherson. The seal is dark red instead of pink, and the parallel ruling is poor, as is most of the lathe work. It is a fairly deceptive photo-etched production, and the silk fiber distributed through the genuine paper has been closely imitated.

Is Ignorant of Jimenez' Arrest.

Havana, Aug. 31.—Gov. Gen. Brooke does not know that Jimenez, the aspirant to the Santo Domingo presidency, has been arrested at Santiago de Cuba as reported. He says he received a telegram from Gen. Wood, military governor of Santiago de Cuba province, asking if Jimenez should be detained, and he immediately answered in the negative.

Bury John Brown's Comrades.

Lake Placid, N. Y., Aug. 31.—Thirty-five hundred persons witnessed the ceremonies at the reinterment of John Brown's followers in the little graveyard at the John Brown farm at North Elba, about two miles from here, Wednesday afternoon. The date is the forty-third anniversary of the battle of Ossawatimie.

Six Killed in a Yuma Fire.

Yuma, Ariz., Aug. 31.—E. F. Sagmetti's merchandise store burned Wednesday with the loss of six lives. A crowd of men was carrying goods from the building when the second floor fell upon them. Many were injured. The loss is estimated at \$150,000. The insurance was \$50,000.

Spanish Fraze of Americans.

Madrid, Aug. 31.—The Havana correspondent of El Imparcial of Madrid pays high tribute to the American administration in Cuba. He praises Gen. Brooke for his impartiality and justice and Gen. Wood of Santiago for his sterling sense and polite behavior.

Likes the President's Speech.

London, Aug. 31.—The Times, in an editorial on "The American Imperialistic Policy," says: "President McKinley's speech at Pittsburgh places American policy on a solid and unassailable basis."

## JOHN R. McLEAN THE NOMINEE.

Cincinnati Editor Named by Democrats for Governor of Ohio.

Zanesville, O., Aug. 31.—John R. McLean was nominated by the democrats of Ohio Wednesday as their candidate for governor, carrying the convention by three votes. There were 802 votes in the convention and on the first ballot McLean received 492½ votes. The nomination was then made unanimous.

The full ticket is as follows: Governor, John R. McLean, Cincinnati; lieutenant-governor, A. W. Patrick, Philadelphia; supreme court judge, De Witt C. Badger, Columbus; attorney-general, W. H. Dore, Tiffin; auditor, George W. Sigafosse, Greenville; treasurer, James L. Gorman, Ironton; board of public works, F. D. Malin, Painesville.

Memorial hall was packed when W. S. Thomas, chairman of the democratic state committee, called the state convention to order.

In the opening prayer Very Reverend L. F. Kearney, Catholic, prayed most earnestly for the deliverance of the Filipinos from "the brute force" now being inflicted upon them. The prayer was so radical and forcible throughout that it brought forth rounds of most vociferous applause.

Judge W. P. Mooney, temporary chairman of the convention, was introduced, and was received with a great ovation. He made the usual address, introducing a eulogy of William J. Bryan.

The first plank of the platform is as follows:

"We heartily reaffirm the entire Chicago platform of 1896, and we especially emphasize the financial plank therein, and we continue to demand the free and unlimited coinage of silver and gold as equal in primary money at the rate of 16 to 1, independent of all other nations in the world."

The resolutions then reaffirm the confidence of Ohio democrats in William J. Bryan and demand his renomination in 1900; "imperialism in the United States is condemned; alliance with foreign kingdoms and empires opposed, and the present 'war for conquest' in the Philippines denounced. The 'Hanna-Payne' shipping bill is opposed, and also the establishment of a large standing army. The maintenance of a splendid and efficient navy is favored, and the initiative and referendum, the passage of the eight-hour labor law, the more rigid inspection of mines and workshops, the prohibition of sweatshops and the abolition of the contract system of prison labor.

The plank on trusts says: "We declare that all unlawful combinations of capital are the legitimate fruits of a gold standard, and other corrupt republican legislation on questions of the tariff, and we demand that all articles, the prices of which are controlled by the trusts, be placed on the free lists."

Other demands are for a cessation of national bonded debt building to curse posterity, and a reduction of taxation and a more suitable distribution of its burden.

The platform recommends the adoption of a constitutional amendment providing for the election of president, vice-president and United States senators by a direct vote of the people.

## NEWS FROM THE COUNTY

Porter

Porter, Aug. 31.—There were about one hundred in attendance at the dancing party given at the Porter Band hall last Friday night. Tuckwood's orchestra furnished excellent music. All present report a pleasant evening. Arvil T. Van Slyke of Hermitage, N. Y., after visiting a week with his cousins, W. M. Tolles and family, went to Union and Oregon last Monday, for a few days' visit with relatives there. Miss Altie Bathrick of Minnesota, who has been visiting at B. O. Searles' and also relatives in Evansville, has returned home. Miss Fannie Dooley of Jansville, has been visiting Miss Dill Tolles, the past week. Miss Mae Pierce has been in Union, helping to care for her grandmother, who is dangerously ill. A number of the young people attended a picnic at Crystal Springs park last Sunday. W. M. Tolles and sons, Flinn and Burr, and Arvil Van Slyke were Stoughton visitors and also Lake Kegonsa last week Thursday. A. L. Elford and W. Howard of Albany, were visitors at W. M. Tolles' last Sunday. Mr. and Mrs. W. M. Tolles were guests at Oregon the fore part of the week. Miss Hill of Appleton, has been visiting Miss Valerie Erdahl. Several of the young people attended the picnic at Whitefish Bay, Tuesday. Harold Brunzell is suffering an abscess on one of his knees. Clenden Stebbins and family of Stoughton, were guests of Cookville friends last Tuesday.

Porter

Porter, Aug. 31.—Frank Caneghey of Edgerton, was here Friday and helped set up a new steam tester in the Eagle creamery. Master Harry Flynn of Jansville, is visiting with his grandmother, Mrs. Cassidy. Messrs. Thornton and Elleson of Fulton, are painting the barn on the Will Nichols' farm. Hans Just lost a milk cow last week the result of eating too much dry oats. The funeral of Wm. Fox which took place from his late home here, was one of the largest ever held in this vicinity. Mr. Fox was a man whom to know, was to respect, and his very sudden death is a great blow to his family, to whom the community extend their sympathy. Sunday is reported the warmest day of the season. Farmers are harvesting a good crop of tobacco at present. Tramps are plentiful in this locality. Cream was hauled from Milton and Otter Creek last week to Eagle factory to be churned, owing to the churn-room at Milton being varnished.

Shadowed Dreyfus.

Guenee, the private inquiry agent who helped to seal the fate of Dreyfus, died recently. He was employed in 1894 by Col. Sandherr in collecting gossip on Capt. Dreyfus' private life, and his reports were shown even at the court martial to be utterly untrustworthy. Before the criminal chamber last year he had to admit that his spies misled him, and he lost his occupation as a secret service agent.

How to Get Rich.

In a recent symposium on how to get rich the millionaires interviewed give a diversity of opinions. One says "the best way to become wealthy is not to talk too much during business hours," a plea for reticence in deciding on plans. Another suggestion is to "make yourself agreeable to your most obnoxious customer." A third advises five things: "Push, squareness, clear-headedness, economy, and rigid adherence to the rule of not overworking." Mrs. Betty Green gives it as a lesson of her experience that "For a woman to be successful one of the most important things she must do is to learn how to mind her own business." These rules may not produce the desired result, but their sponsors think they would have failed without them.

## GROWING TRADE WITH GERMANY

Milwaukee Evening Wisconsin—It is significant that in spite of alarmists who make the most of all possible causes of friction between the United States and Germany, that the commerce of the two countries with each other has for years past been steadily increasing. The total commerce between the United States and Germany in 1899 was \$240,015,064, against \$224,787,851 in 1898, and \$236,456,652 in 1897, prior to which time the total commerce between the two countries never reached as much as \$200,000,000, the 1896 total being \$192,138,080, that for 1895 \$178,067,813, and \$189,429,118 in the phenomenal year of 1892. The exports from the United States to Germany in 1899 were the largest in the history of the trade between the two countries, being \$155,772,279, against \$155,039,979 in the fiscal year 1898 and \$125,246,089 in 1897, prior to which year they never reached the \$100,000,000 line, except in the year of 1892, when they were \$105,521,558. The importations from Germany in the fiscal year 1899 were \$14,545,367 greater than in the preceding year, being \$84,242,745, against \$69,697,378 in 1898 and \$111,210,614 in 1897, the only year in which the importations from Germany crossed the one hundred million dollar line. The balance of trade in favor of the United States in the fiscal year 1899 was \$71,529,476, against \$85,342,594 in 1898, \$14,035,474 in 1897 and \$3,656,364 in 1896. During the decade 1890-1899 there have been seven occasions in which the balance of trade with Germany was favorable to the United States, and three in which the balance was against us. The total imports into the United States from Germany in the decade 1890-1899 were \$885,035,402 and the total exports from the United States to Germany \$1,085,826,755, the balance of trade in favor of the United States in the full decade being \$200,791,353.

The latest in the trust line is the Farmers' Federation of the Mississippi Valley has been organized at Topeka, Kansas. The object of the federation is to regulate and control the shipment of farm products of all the states in the Mississippi valley, to establish and maintain offices, yards, grain elevators, to maintain agents to handle, sell and distribute such products and to lend and borrow money and do a banking business at Topeka, Omaha, Kansas City, St. Louis, Chicago, Cincinnati and New Orleans. The capital stock will be \$2,000,000 in shares of \$10 each.

Edward Atkinson's seed is falling on barren soil. Over one hundred thousand men applied for enlistment under the president's last call, when only 15,000 were needed. In Chicago 1,916 applied but only 94 were accepted. What better indication of public sentiment could be had?

The Chicago Chronicle suggests that perhaps Dan Coughlin wrote the French bordereau. As Dan has never been charged with anything worse than murder and jury bribing, it would seem that The Chronicle was taking a rather mean advantage of him in his absence.

There is a farmer, living in Vermont, who had not heard of Dewey's victory until he heard that a big celebration was to be held in honor of the admiral. And Vermont is Dewey's home state, too.

Altgeld, according to the Chicago papers, is seeking harmony. A careful search of his bootlegs, however, will, we think, still disclose the hiding place of his justly celebrated Corsican pinard.

How much salary could a first class dime museum afford to pay Dreyfus for a six weeks' engagement?

## VALUE OF SMALL INVENTIONS.

Enormous Fortunes Have Been Made from Simple Devices.

The inventor of the roller skate made \$200,000. The gimlet pointed screw has been responsible for more wealth than most silver mines. One hundred thousand pounds in first-class securities would not represent the fortune made by the man who first thought of copper tips to children's shoes. Even a little thing like a common needle threader is worth \$10,000 a year to its owner, while the "return ball"—a wooden ball fastened on a piece of elastic—yields \$10,000 per annum; this is only one of the many profitable toys. We may mention the "Dancing Jim Crow," which produces \$15,000 a year; the "wheel of life," worth in all full \$100,000; the walking figure, "John Gilpin," and the "chameleon top." The sale of the last named toy has been enormous and the profits also enormous. Indeed, the "chameleon top," as a profitable invention, has probably excelled any one discovery in modern times, however valuable and important this may have been. As far as profits are concerned the invention of toys pays better than those of anything else. Money has been and always can be made more easily out of simple patented inventions than out of any investment or occupation. Great discoveries take so many years and cost so much to perfect that the fortunes made from them are small compared with those we have instance. The man who discovered that a candle if tapered at the end would stick firmly into its socket patented the idea and afterward founded the largest candle factory in the world. Might not anyone have thought of this simple device? Out of the millions who own umbrellas, how many realize that these unfortunately indispensable articles represent wealth untold! The frame, the cover, the materials used, all are the result of numberless experiments and patents. An umbrella years ago used to be made of whalebone and gingham. It weighed as much as a portmanteau. Alpaca was substituted for gingham, then silk for alpaca. Each change meant a fortune to the inventor who brought it about. For a long time the ribs were solid; then Samuel Fox arose, took the umbrella and cut grooves along its ribs. He designed the "patent paragon frame." He lived to see his invention used universally. At the death of Samuel Fox his heirs were benefited to the extent of \$179,000—the residue of a total profit of at least \$500,000.

## Public Fountains Well Patronized.

One of Boston's municipal officials, who is especially interested in the establishment of free ice water fountains in that city, hired a man to watch one of the drinking places the other day from 6 a. m. to 10 p. m., for the purpose of ascertaining whether or not it was well patronized. Between the hours named exactly 9,335 persons drank at the city's expense. The fountain has four faucets.

## Genuine Self-Control.

While the distinguished artist was showing his paintings to his guests Bob sat at his mother's elbow rather bored, but quite silent, as became a boy of 7 years. At length a spring landscape—brilliantly and wonderfully impressionistic—was placed against the easel. Bob clapped his hand to his mouth. "Oh!" he gasped, "I very nearly said what I thought." "What was that, Bob?" asked the artist. Bob shook his head stoutly. "I think maybe you would like it better if I thought again!" said he.

## RT. REV. NICHOLSON VISITS JANESVILLE

### ADMINISTERED SPECIAL CONFIRMATION RITES.

A Class of Seven Candidates Confirmed at Trinity Episcopal Church Last Evening—Rev. F. L. Maryon Led in the Evensong—Other Clergymen Present.

Right Rev. I. L. Nicholson, S. D. T., bishop of the diocese, came out from Milwaukee yesterday and administered special confirmation rites to a class of seven candidates at Trinity Episcopal church last evening. Those confirmed were: Lorenzo Spencer Dudley, Herbert P. Anthony, Leroy Maine, Arthur Leon Main, Edwin Reader, George Miller Dopp and Harriet Elizabeth McGuire.

The confirmation was conducted by the bishop and Rev. F. L. Maryon, rector of the church, led in the evensong. Other members of the clergy who were present were Rev. G. W. Dunbar, representing Christ church, and Rev. F. C. Roberts, rector of St. Luke church, Bay View, Milwaukee.

Bishop Nicholson took for his text, "Acts 5:14," "And believers were the more added to the Lord, multitudes both of men and of women." He preached a strong sermon on the contrast between the men of today, and the multitudes of the early ages, flocking into the church, and hoped that the class just confirmed would set a better example than many had. He thought that the early Christians possessed a warmer personal love for Jesus Christ than do the Christians of the present day. The people then were stronger in the faith and would have died for it, but now there is too much of a question raised as to this faith or that. He begged his hearers to acquire more of the missionary and evangelizing spirit and thought we of the present lacked interest in this important work. In the early church Christianity was of the unselfish sort, while now it has a tendency to be opposite. In closing, the bishop said that in order to be a good apostolic Christian one must possess four great qualities, namely: Warm personal love for Jesus Christ; a martyr spirit; a missionary and evangelizing spirit; and an unselfish Christianity.

The song service was excellent, possibly the pleasantest feature of which was the superb rendition by Kramer Doty, of the solo, "Ave Maria." The singing by the surpliced choir was also fine.

### THEY ARE HIGHLY SPOKEN OF

Harvard Independent Speaks Well of Salvationists.

The Harvard Independent pays the following compliment to the Northwestern tent brigade of the Salvation Army, which arrived in Janesville yesterday:

"The Salvation Army brigade departed yesterday for Janesville, Wis., to hold a series of meetings. Their tent will be pitched near the Y. M. C. A. building and the opening service was held in the First Presbyterian church Wednesday evening. The members of the brigade are perfect ladies and gentlemen and made many friends here, being entertained in some of our best homes. They are well educated and cultured, people and good musicians. Last Sunday morning Capt. Hill preached in the M. E. church and Major Damon in the Presbyterian church. The latter also had charge of the Epworth League. Both churches were closed in the evening in order that all might attend the army's last Sunday evening service in this city."

The work of the brigade began in this city last evening with an open air service followed by a meeting at the Presbyterian church. Beginning with this evening, meetings will be held in a tent which was pitched during the day, back of the Y. M. C. A. building. The temporary home in this city is designated as Camp Salvation.

The brigade, with two others are touring this section of the country and are doing a grand work.

Captain Joseph Hill and wife are in charge of the brigade now with us. Other members are Misses Flora Austin, and Mabel LeClare; Mr. Jensen and Father James Brown.

### GREAT COON SHOW TONIGHT

First Presentation in This City of "The Hottest Coon in Dixie"

"The Hottest Coon in Dixie" will make its first appearance in this city tonight at the Myers Grand. It is a musical farce comedy and travesty in three acts, presenting a pleasing mélange of all the most popular features of farce comedy, vaudeville and comic opera, including all the latest "coon song" hits of the day. The singing corps includes the famous "Clorindy" chorus, almost intact, as seen for sixteen weeks at the New York Casino. This play lays claim to the strongest chorus of colored singers in the world. In its ranks are some of the prettiest colored girls on the stage. The costuming of the piece is also a feature.

### To Water Consumers.

Owing to the large amount of water being wasted, the water company will hereafter expect customers to observe the following rules. Lawn sprinkling is only permitted between the hours of five and eight p. m. Continual running water from open faucets is not allowed. All water fixtures must be turned off in case of fire alarm. W. W. Hyzer, Supt.

### MENU FOR FRIDAY.

Nothing is more satisfying after dinner than tepid coffee.—The Child.

**BREAKFAST:**  
Fish Balls, Bacon,  
Potato Cakes, Water-Cress,  
Rolls, Coffee, Fruit.

**LUNCHEON:**  
Sardine Salad,  
Toasted Cheese Rolls.

**DINNER:**  
Cream of Rice,  
Baked Whitefish,  
Lima Beans, Artichokes,  
Lettuce and Tomato Salad,  
Black Coffee, Cheese, Biscuits.

**PEARS FOR PRESERVING.**—Should be firm and rather sour; if small, they should be preserved whole; if large, they should be cut into quarters. Peel with a silver knife, dropping each pear into a basin of cold water as soon as peeled to keep the color white. When the pears are all peeled and cut, if necessary, weigh them, allowing equal weight of sugar. Put the fruit in a saucepan on the stove, with enough cold water to cover it completely, and let boil gently until soft enough to yield to gentle pressure of the fingers. While the pears are boiling put the sugar in the preserving pan. To each pound of sugar add two breakfast cups of cold water and to every five or six pounds of the juice the thinly pared rind of two lemons and two ounces of green ginger root, scraped and sliced. Let the syrup, straining off the scum as it rises. When the fruit is tender, put it into the preserving pan with the syrup and boil till the pears look clear and the sugar has melted. Let preserves cool in the syrup and then place in jars, fastening so as to be airtight.

## A YOUTHFUL STORE BREAKER IS FOUND

### ARTHUR SCHULTZ TAKEN TO SPARTA TODAY

Ten-Year-Old Lad Admits to Breaking Into Bugge Bros' Grocery Store at Monterey and Stealing Toothsome Articles—Lad Will Tarry at Home For Dependent Children.

A store-breaker ten years old and not larger than a bantam rooster has been found in the Fourth ward.

Two weeks ago the Bugge Bros' grocery store in Monterey was robbed. Somebody broke out one of the front windows and made a haul of candy, licorice and chewing gum.

The character of the spoils indicated that no organized band of western train robbers had stopped off here and done the job. On the other hand, the work was so bold and so energetically accomplished that the police were at a loss to know whom to suspect.

Chief Hogan kept close watch of boys and girls living near the store but could see no evidence that gum abounded.

The guilty youth was brought to light at last where least expected. Mrs. Selmar, who lives near the store, told Chief Hogan that she was afraid her little brother, Arthur Schultz, only ten years old, had done the job as he had found a lot of candy, gum and licorice hidden in her barn.

The little boy, who has neither father nor mother, admitted after a little questioning, that he got out of bed at midnight, broke the store window with a brick and stole what he could reach. He was taken before Judge Sale, Monday, and an examination of the case made it seem advisable to send him to the home for dependent children in Sparta, and he was taken there by Poormaster S. B. Kenyon today.

### CAUGHT IN CUPID'S MESHES.

Hockett-Leflingwell.

Robert Hockett and Miss May Leflingwell stole a march on their friends when they boarded the vestibule this morning for Chicago where they were to be joined in the holy bonds of matrimony today.

The happy couple have been engaged for some time, so that the news of their marriage will not occasion much surprise among their many friends. Both of the contracting parties are well known in Janesville. Miss Leflingwell is the daughter of L. L. Leflingwell and is a young woman of exceptional talents and very popular. Mr. Hockett is a member of the firm of Robert Hockett & Son, the successful baking company of this city. He is a young man of sterling worth and is popular with a large circle of friends.

Mr. and Mrs. Hockett expected to remain in Chicago until tomorrow morning when they will leave for Philadelphia, New York and other points in the east on a two week's wedding trip. Upon their return they will take up their residence in Janesville where they will receive the congratulations of their many friends.

Bean-Smith.

The marriage of Miss Jessie F. Smith to James E. Bean was solemnized at the home of the bride's parents, Col. and Mrs. Nicholas Smith, 2024 Cedar street, Milwaukee, on Wednesday afternoon. The officiating clergyman was the Rev. Judson Titaworth, pastor of the Plymouth Congregational church. Mr. and Mrs. Bean will be "at home" after October 4, at No. 740 Main street, Oshkosh. The groom was for some years vice-president and manager of the United States Manufacturing company at Fond du Lac, and still holds the same position in the reorganized company which has been removed to the former city. The bride is a young lady of exceptional ability and of many graces. She has a host of friends in Janesville and many sincere good wishes will be extended.

### "Two Politicians."

One of the first things done by a stranger visiting Albany, says the Philadelphia Call, is to pay 25 cents and put himself at the mercy of a capitol guide. The guide makes a profound and obsequious bow, like a presiding dignitary about to charm an audience, and proceeds to lift the veil which hides the mysteries of the great building. On a recent occasion the guide led the stranger regrettably past "McGinty's" empty frame, and proceeded to identify the heads of notables that decorated the stairway. He did fairly well until the stranger pointed out Shakespeare and Homer and asked who they were. "Them," replied the guide, undaunted, "are the heads of two politicians whose names I disremember."

### To Prevent Intoxication.

Peanuts have a faculty of absorbing alcohol and preventing it from demoralizing the nerves and upsetting the thinking machine. It is estimated, for example, that if a man drinks a quart of champagne and eats a pint of peanuts, the peanuts will overcome the intoxicating quality of the wine, without entirely curdling its exhilarating effects. The large proportion of oil in the peanuts accounts for this result. A good wine glass of olive oil has the same effect.

### Farmer Boy Students.

Of the 97,000 students in the colleges of the United States during the past year 40 per cent of them were from the agricultural classes.

### The Shepherd's Barometer.

The wool on the back of a sheep is a shepherd's barometer. The curler the wool the finer will be the weather.

### HURT IN BICYCLE ACCIDENT

Charles W. Dearborn Lost Control of Wheel in Descending a Hill.

Charles W. Dearborn was painfully injured in a bicycle accident yesterday and his wheel was wrecked. He lost control of the machine while descending a hill and upon reaching the bottom was thrown with great force. He struck upon his shoulders and head and was rendered unconscious. Chas. Atwood, who witnessed the accident, conveyed him to his home, No. 205 Court street, where an examination failed to reveal any broken bones. The injuries were very painful, however, as one side of his face was badly skinned and he received other severe bruises which will lay him up for a few days.

### JOINS THE GREAT MAJORITY.

Arthur McKeown.

Arthur McKeown, the four-year-old son of Mr. and Mrs. Lawrence McKeown of the town of Bradford, passed peacefully away yesterday afternoon, after an illness of only twelve hours' duration. Arthur was a child loved by all who knew him. In their sad affliction, the parents have the sympathy of their many friends.

The funeral was held from St. Patrick's church this afternoon at 2 o'clock, and the interment was in Mount Olivet cemetery.

### Worn Bank Notes.

Every year the treasurer of the United States is called upon to redeem millions of bank notes which have become badly worn as a result of constant handling. During the fiscal year recently closed Treasurer Roberts gave new bills in exchange for old to the amount of \$290,000,000, breaking the record of the last six years. This is an indication that with the return of prosperity money is in free circulation.

### Knife Duels in Spain.

Knife duels are very frequent among the lower classes of the cities in southern Spain. When two are about to fight they blow whistles to attract spectators. Their left legs are tied together at the knees, and then at a signal they begin attacking each other with long knives. In a duel recently witnessed in Alente one of the combatants received fourteen wounds and the other seventeen.—The Rival.

### The Trolley Picnic.

The idea originated in a city girl's mind, and is of special significance to the town tied, who cannot secure more than a half holiday at any time during the long exacting and wearing hot spell. It is a sort of co-operative affair, each person invited being expected to contribute to the cost of chartered cars and the luncheon. In very truth, this picnic is a movable feast. The first car can be made suitable for dining by using a closed one, with a long table set down the middle. Of course the second one is of the open variety, and in it the guests remain save on the occasions when they feel inclined to refresh the inner man, when the conductor is given the signal, and at the cry "Change cars," they all adjourn to No. 1, there to eat and drink as they wish along from city streets to country lanes, or vice versa.

## TWO BARN BURN; A HORSE CREMATED

### PROPERTIES OF A. W. BAUMANN AND MRS. JANET AIRS.

One Belonging to the Latter Was Entirely Destroyed—Other Partially Burned—A Narrow Escape For Nearby Residences—Loss Covered By Insurance—Origin Unknown.

An alarm of fire from box No. 14, located at the Woodruff Buckle factory, called the department to the corner of Mineral Point avenue and North River street at 12:20 this afternoon where they fought a bad fire in two barns, the property of A. W. Baumann and Mrs. Janet Airs. The one belonging to the latter was entirely destroyed, together with the old family horse, while Mr. Baumann's barn was partially burned. An outbuilding, and some fencing was also destroyed.

It is a fortunate thing that there was no wind at the time for both structures were very close to the houses and the flames might easily have been communicated to them. As it was, Mr. Baumann's house was scorched by the intense heat and he was compelled to throw water on it with a garden hose, to prevent its catching fire. Immediately upon the arrival of the fire department, direct pressure was called for, and the blaze was soon under control. The loss on both buildings is entirely covered by insurance. How the fire started is not known. The Airs family were at dinner at the time, and they are at a loss to account for the blaze. It is reported, however, that they were in the habit of dumping wood ashes in a box at the barn, and it may be the fire was started that way. An attempt was made to get the horse out, but A. W. Baumann was driven out by the flames while attempting to untie the halter.

### Earnings of Men and Women.

A comparison of the earnings of men and women in the state of New York shows that 69.2 per cent of them earned between \$50 and \$115 in the quarter, while 37.8 per cent earned between \$75 and \$100; the number that earned more than \$150 in the quarter (equivalent to \$2 a day) was insignificant. On the other hand, more than one-half the men earned more than \$150 each.

## STONE NAMES COMMITTEES.

**Composition of Subcommittees of the Democratic National Body.**

St. Louis, Mo., Aug. 31.—Former Gov. Stone, acting chairman of the democratic national committee, after being advised by Chairman Jones, has named the following subcommittees of the national committee:

**Executive**—Messrs. Johnson of Kansas (vice chairman), Stone of Missouri, Campau of Michigan, Shanklin of Indiana, Clayton of Alabama, Guffey of Pennsylvania, Gahan of Illinois, Head of Tennessee, Thompson of Nebraska, Williams of Massachusetts and O'Brien of Minnesota.

**Ways and Means**—Messrs. McLean of Ohio (vice chairman), Woodson of Kentucky, Wilson of Colorado, Dwyer of California, Tillman of South Carolina, Campbell of New York and Johnson of Kansas. The former members of this committee, Messrs. Altgeld, Allen, Teller and Stone, resigned and requested the chairman to name their successors.

**Press Committee**—Messrs. Howell of Georgia (vice chairman), Daniels of North Carolina, Troup of Connecticut, Walsh of Iowa and Johnson of Kansas.

The chairman of the national committee will be ex-officio chairman of all subcommittees.

## Shows Sympathy for Labor.

Buffalo, N. Y., Aug. 31.—Before the American Bar association Wednesday a resolution expressing sympathy with M. Labori in his struggle for justice in the Dreyfus case was again introduced, and met with much opposition, some delegates believing it might work evil to Dreyfus. The resolution was finally carried by a vote of 130 to 69. These were elected officers of the association: President, C. F. Manderson of Nebraska; secretary, John Hinkley, Maryland; treasurer, Francis Rawle, Pennsylvania; executive committee, Edmund Wetmore, New York; U. M. Rose, Arkansas, and Charles Noble, Wisconsin.

## Shackelford's Finality.

Jefferson City, Mo., Aug. 31.—Complete returns from all the counties in the Eighth congressional district, except one, which is estimated at 300 republican, shows the democrats have carried the district and have elected Judge Dorsey W. Shackelford to congress to succeed the late Richard P. Bland, by a majority of 3,165 votes, over W. J. Voshell, republican. Hale, the populist candidate, failed to poll the large vote expected.

## To Die for Striking Officer.

Victoria, B. C., Aug. 31.—The Mailla Times, a copy of which has been received by the Canadian Pacific steamship Empress of China, states that Private McVeigh of Company G, First Wyoming volunteers, has been court-martialed for striking and threatening to kill Capt. Wright, his commander, on May 4 last. He is now under sentence of death, but the sentence will not be carried into effect until President McKinley has approved it.

## Zulus May Aid the Boers.

London, Aug. 31.—The Pretoria correspondent of the Morning Post says: "The Matabels are showing signs of unrest. The Boers are energetically engaged in poisoning the minds of the natives against the British, and they have approached the Zulu chief Dinuzulu, who appears undecided which cause to espouse. But the Zulus are preparing for the expected fighting."

## No Anti-Trust Law in State.

Louisville, Ky., Aug. 31.—Judge T. Z. Morrow of the Whitley Circuit court has decided that there is no anti-trust, pool or combination statute in Kentucky. He dismissed the cases against the wholesale grocers of Louisville, charged with combining to fix prices on teas, sugars, etc. The case will be appealed by Commonwealth's Attorney Sharp.

## PLAN TO UNITE ALL EUROPE.

**The Cologne Gazette Talks of a Great Alliance.**

Berlin, Aug. 31.—The Cologne Gazette, in an article dated at Amsterdam, classes the proposed German-Holland Tariff union with the serpent stories. It declares that free trade Holland cannot come under the same roof without a complete disorganization of finances, industry and trade, and that the statesman that could solve the problems arising from such a union would belong in an imaginary country of political dreamers. It asserts that the proposal to organize the united states of Europe into an offensive and defensive alliance would be better worth discussing, but that here, also, it is advisable to wait events.

## Named by Iowa Populists.

Des Moines, Iowa, Aug. 31.—The middle-of-the-road populists' state convention nominated a full ticket Wednesday, and adopted a platform reiterating the populist declarations in favor of silver coinage at the ratio of 16 to 1, for the government control and ownership of the railroads, for socialism, which the populists believe will solve the trust question, and for the initiative and referendum. Barker and Donnelly were endorsed as a presidential ticket. The following were the nominations: Governor, Charles A. Lloyd; lieutenant-governor, S. M. Harvey; Supreme Judge, L. H. Weller; superintendent of public instruction, C. Worth; railroad commissioner, Robert L. Dunning.

## Work Awaits the President.

Washington, Aug. 31.—President McKinley is expected to return here on Saturday, but will remain only a few days, when he will leave for Philadelphia. After his visit to the City of Brotherly Love the president will return here and remain until his visit to Chicago during the celebration attending the corner-stone laying of the public building. When the president arrives here several important matters will be taken up at a cabinet meeting to be held before his departure for Philadelphia.

## Runaway Cars Cause a Wreck.

New York, Aug. 31.—The Erie accommodation train from this city, due at Arlington, N. J., at 2 o'clock, was wrecked Wednesday on the bend just east of Arlington. Two freight cars broke away from a siding at Montclair and ran away down the incline past Arlington, crashing into the passenger train just before it got around the bend. William Nurie of Arlington was killed and J. J. Connell of Bloomfield was fatally injured. Besides Connell, ten other persons, train men and passengers, were injured.

## Illinois Men Get Commissions.

Washington, Aug. 31.—Illinois has been awarded twenty-two commissions in the ten volunteer regiments now organizing. Ten Illinois men have been selected for captains, eight for first lieutenants and four for second lieutenants. All of them were in the service during the war with Spain, and they were selected on their merits from a large number recommended to the war department.

## Both Nations to Gain.

Berlin, Aug. 31.—The semi-official North German Gazette, giving the terms of the new postal agreement with the United States, says the arrangement will result in considerable benefit to German exports and forms a new bond of interest between Germany and America.

## Ohio Town Suffers by Fire.

Tiro, Ohio, Aug. 31.—A fire started here at 10:15 o'clock last night, and the larger part of the town was destroyed. The fire departments from Tiffin, Ohio, and New Washington came in response to calls. The fire started from an explosion.

## Declares for Jiminez.

Cape Haytien, Sept. 1.—Advices received from the cities of Santiago and Porto Plata, in Santo Domingo, say that both have proclaimed in favor of Gen. Juan Isidro Jiminez, the revolutionary aspirant to the presidency.

## More Warships to Santo Domingo.

Washington, Aug. 31.—In view of the revolutionary movements in the Dominican republic, the navy department has decided to send more war vessels there.

## Spain May Recognize Rebels.

Madrid, Aug. 31.—The Philippines committee has sent a petition to the government asking that direct arrangements be made with the Filipino government or Agoncillo, the representative of Aguinaldo, for the release of the Spanish prisoners held by the insurgents. The petitioners say that such action would make the liberation of the prisoners a certainty.

## Gold Certificates in Demand.

Washington, Aug. 31.—The daily statement issued by the treasurer of the United States of the receipts and payments of gold certificates shows that since Aug. 7 the calls for gold certificates, in exchange for gold coin, amount to \$35,536,870.

## Work for Newspaper Correspondents.

Rennes, Aug. 31.—Several well-known war correspondents here representing English newspapers received instructions to hold themselves in readiness to start for the Transvaal on twenty-four hours' notice.

Mrs. E. B. Connett, of 107 Cornelia street, says: "I doctored from time to time for the last eight or ten years for kidney complaint. I felt fairly well as long as I took medicines, but if I left off I immediately became worse. At one time I had such a severe attack that I came near dying. The pain became so severe that it brought on nervous chills, my finger nails turned purple and I never suffered so much in my life. The medicine I took seemed to act as a stimulant while I used it, and I finally recovered in a measure. During the last three years I suffered from attacks of headache, dizziness and backache. It was for these reasons, that on learning about Doan's Kidney Pills, I procured them from the Janesville Co's. drug store and I can say they are a splendid remedy. The pain in the region of my kidneys was removed in a short time and since completing the treatment I have felt better generally. Doan's Kidney Pills for sale by all dealers. Price 50 cents. ## THE WIDE AWAKE

# Our Clothing Department

## FOR BOYS AND CHILDREN.

We have made an addition to our stock that we think will be appreciated by mothers from the fact that the department will give them an opportunity of purchasing Clothing for the boys at a much less figure than is usually asked by other stores for strictly dependable goods. The Clothing we have purchased comes from the best makers in the country and is made up from the late cloth patterns in the best styles. Each will be warranted by us fully as is every article in our store. We can afford to let these goods out for less than the stores that depend on the line for profit, rent, etc., because it is merely one of a great number of departments in our store, and, like our Shoe stock is merely one of the whole stock to bring up our yearly margins.

## Suits For Boys

For fall and winter wear, ages 3 years up to 8 years; 3 piece Vestee Suits, \$1 25  
Boys' 3-piece Vestee Suits, 2 50  
at \$1.75, \$2.00 and.  
Boys' 2-piece knee pant Suits, all wool, 3 00  
well made, \$2.25, \$2.50 and.

## Youths' Suits,

Ages 15 to 19 years, handsomely made, pretty patterns, \$5.00 to 8 00  
New goods coming every week, so that you can secure an excellent selection.

## Shoe Department is Booming.

Our lines for the children bought especially for school use are the best in the country, and you will find a considerable saving on every pair. Mothers should bear our store in mind while getting children ready for school.

# DRESS GOODS..

The merchant who is "good and ready" before the tide of demand sets in is the merchant who wins. What is true of the merchant is just as true of his customers. The woman who has her dresses a little ahead of the season is the woman who wins satisfaction, ease and comfort, and escapes "Dress-flaker-Nervous-Prostration."

During the past two weeks we have received over three hundred pieces of New Dress Goods, ranging in price from 25c to \$3.50 a yard, including the very latest styles for customs, tailor-made suits, separate and walking skirts, in plain, mixed and fancy weaves, single and double faced plaids and checks.

If you have got to buy a Dress don't you think it will be to your advantage to see this first-class, high grade, low priced line of new Dress Goods?

The Cash Plan saves you money on every yard you buy.

from any form of Female Trouble, write to a physician who is a specialist and who practices medicine. Describe your case fully in a letter to GEO. C. TALLERDAY, M. D., Belleville, Ills. and he will send you free advice and directions which will bring about a complete cure. All correspondence is confidential.

### Dr. Tallyerday's Female Tonic

goes right to the seat of the trouble in all cases of uterine affections—Leucorrhoea, Suppression, Prolapse and painful Menstruation, and taken for some time before confinement makes child-birth easy. It is the best tonic for nursing mothers and at change of life, and the greatest of Spring medicines. For Sale by all Druggists at \$1.00 a Bottle.

### Sugar Making in Old Mexico.

It has often been wondered at that Mexico, with a climate admirably adapted to sugar raising, has never entered into competition with the United States. Official figures show that the republic of Mexico is now producing annually about 80,000 tons of sugar, all made from cane and with the most primitive machinery. It is all consumed at home. Figures which are also official show that Cuba produces annually a million tons of sugar, or twelve times more than is produced in Mexico, and on one-fifth the number of plantations. The reason advanced for this difference is that Cuba employs modern methods of machinery, while Mexico does not. There is no likelihood that Mexico will come into the sugar market as an exporter for a great many years. Cuba, however, will develop with great rapidity in the manufacture of sugar, and under American direction her factories are expected to almost double their output within a decade. Mexico cannot hope to be a formidable rival in the sugar producing industry until she discards her old custom of manufacture and adopts at least some of the modern labor-saving appliances.

### The Origin of Whist.

The game of whist originated in England. It is believed to have developed from the older game of triumph, or triumph, which was played as early as 1350. In fact, in that year sermons were preached denouncing the game as one that tended to take the mind off the truths of religion. In 1841 whist is first mentioned in English literature. ### Does Coffee Agree With You?

If not, drink Grain-O—made from pure grains. It is the first time I made Grain-O. I did not like it but after using it for one week nothing would induce me to go back to coffee. It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer. any tendency among the blind, especially in the line of poetry.

Mrs. Mary E. Stickney, who is at the head of the Women's Press club of Denver, is one of the most distinguished writers of Colorado. Her stories have been published in the standard magazines of the country since 1882, when her signature, which has since become familiar to the readers of high class literature, first appeared in Lippincott's.

Among the creditable philanthropic institutions of Cincinnati is the Home for Ambitious and Self Supporting Girls and Women, its object being to provide a place where working girls can have neat, clean rooms and board within the reach of those earning moderate wages, and in addition be surrounded by refined, Christian influences. The institution was founded by Miss Roma E. Gillman, an Ohio woman of wealth and influence, and is maintained principally by her.

Mrs. Kate Chopin, whose latest book, "The Awakening," has created something of a sensation in the literary world, is a native of St. Louis. Her father was Thomas O'Maherty, an Irish gentleman of prominence and wealth, and the daughter was during her young womanhood a great society belle in the Mound City.

The assistant superintendent of the public schools of Chicago is Miss M. Elizabeth Farson, who has for some years been connected with the educational interests of that city. She is an alumna of the Chicago university.

At the art exposition in Berlin, which closed recently, Fraulein Hildebrand shared the honors with her father, the celebrated Ernst Hildebrand.

Both the fraulein and her father are noted genre painters. The young lady is very popular in Berlin society.

The youngest old woman in America is Mrs. Sarah Doran Terry, who a hundred years ago was a demure little Quaker lass. She is the oldest inhabitant of Philadelphia and is 108 years of age. Her mental and physical faculties are well preserved. She distinctly remembers George Washington, and recalls having aided her mother in preparing a dinner for the Father of His Country.

Miss Grace Fernandez, a graduate of the University of Maine, has received an appointment in the educational department in San Juan, Porto Rico. Her father was a native of Spain, though a naturalized citizen of the United States. Miss Fernandez speaks Spanish fluently.

Mrs. Margaret Miller, the mother of Joaquin Miller, the poet of the Sierras, is 85 years of age, with mental faculties still undimmed. She spends her declining years tending her little garden in front of her home, The Heights, in the foothills near Oakland, Cal., and in reading and rereading her son's poems, of which she is very proud.

Miss Margaret Lee of Brooklyn has instituted a movement that affects all persons whose brains are a source of capital. It is an agitation to amend the copyright law now in force, by which the author's right to his books ceases to exist 42 years after publication, and to make the property right in brain work as real and permanent as property in stocks, bonds or real estate.

Chinese girls are employed in the silk factories, and, according to reports, know little of the sweatshop system. The factories are large, cool and clean. The sanitary conditions are good, and there is a methodical government that does not inspire strikes. The girls form a much prettier picture than the shabby, carelessly garbed women of the American factories.

The prize offered for the best design for a fountain, to be erected in Providence by Paul Pajnotti of Turin, Italy, in memory of his wife, Carrie M. a child of Brown Pajnotti, was awarded Miss Enid Yandell, who is recognized as one of the most talented of women sculptors. The prize was secured in competition with some of the best known sculptors in New York, Boston and Providence. The design is said to be of singular beauty and artistic merit. Although Miss Yandell is only 28 years of age, she has achieved a wonderful success in her art. She is a native of Kentucky, being the daughter of the late Dr. Lunsford P. Yandell of Louisville.

Blind women connected with the institutions for those thus afflicted in New York are to publish a magazine, which is to be named The Milton, in honor of the great blind poet. It is notable that there is a strong liter-

**Fruits.**

### Michigan Bartlett Pears

Are now in their prime and nearly as cheap  
as apples. We advise liberal purchases to  
those who are fond of this Fruit.

### Michigan Peaches

Will not be as cheap as usual this season,  
owing to a large shortage in the crop. We  
are receiving daily Fancy Crawford Peach-  
es, uniform in quality from top to bottom.  
We also handle the common, cheap grade.

### The Season For Michigan Plums

Is drawing to a close and the fancy goods  
which we are handling will be difficult to  
obtain after this week. We are at present  
receiving Lombard, Green Gage and Yellow  
Egg Plums of a special pack, uniform in  
quality from top to bottom, and weighing  
from two to four pounds more than ordi-  
nary grades.

### Blueberries

Will be in market for a week or two longer,  
and the quality is still fine.

Inferior grades of goods are seldom cheap.
